Magic Wheel Cleaner

Acid-free rim cleaner

Magic Wheel Cleaner is our powerful, viscous, acid-free rim cleaner that provides innovative performance to mildly and thoroughly clean rims and rim wells. Its reactive component dissolves iron particles with characteristic red discolouration. Special dispersing agents gently remove stubborn dirt from surfaces. The viscous setting ensures that the sprayed-on Magic Wheel Cleaner adheres excellently to the surface. Dirt remains bound and the cleaner does not dry up, even after an extended application time.

Areas of use

Painted alloy wheels, high-quality chromed wheels, steel rims

Recommendations for use

Do not use on hot paints or surfaces or in direct sunlight. Check for suitability and compatibility prior to use. Shake Magic Wheel Cleaner briefly prior to use and spray the rim surface and rim well thoroughly. Depending on the amount of dirt, allow 2 - 5 minutes for Magic Wheel Cleaner to take effect on the rim and then rinse thoroughly using a high-pressure spray.

Container
